Never finished high school?

Now you can get a diploma without going back.

You already know why it's important to have a high school education. You've probably learned the hard way that it can be a mighty big handicap when you don't have enough education — no matter how hard you work at your job.

What can you do about it?

Maybe you've thought of going again to get a diploma. But you've suffered enough discomfort "inside the gates" to last you a lifetime. So you'd better be aware that there's a way out if you could.

But what if we told you that there was some revolutionary way to get a high school education? An adult way, which gives you rapid, high-level education, gives you choice of practical business and vocational subjects which give you background for out of a number of career fields.

That's the unique Wayne School way. You do your reading and assignments in your spare time, in the relaxed atmosphere of your own home, and "come in" your completed assignments by mail. You don't have to give up your present job. You don't have to study or travel to one of our nearest sites.

And you won't be afraid of dropping out. At any time, if you find trouble with school matters, Wayne's specially prepared teachers make even difficult subjects much easier to take. And Wayne gives you assignments in periods, by mail. You're free from correspondence-course pressures. You stay relaxed, and your progress is truly remarkable.

If you're 16 years or older and want to get ready, why not read for some information? Mail coupons for our free booklet, "How to Start High School at Home." You'll see the plan and compare. And there's no obligation.
